

1500W Pneumatic Demolition Hammer

This 1500W pneumatic hammer is designed for heavy-duty demolition and construction tasks. It delivers exceptional performance for breaking concrete, chipping tile, and driving ground rods.

Product Overview

Professional Performance

This 1500W Pneumatic Demolition Hammer is engineered for heavy-duty construction and demolition tasks. It features a robust motor and high-impact mechanism, delivering exceptional performance for breaking concrete, chipping tile, and driving ground rods. Designed for professional contractors, the tool incorporates vibration dampening technology and an ergonomic grip to ensure comfort during extended use.

Performance Metrics

Power Performance

1500 W Input Power	6 J Impact Energy	4000 /min Impact Rate
------------------------------	-----------------------------	---------------------------------

Technical Specifications

Electrical Requirements	230V / 50Hz
No Load Speed	800 /min
Tool Holder Type	SDS PLUS
Operating Functions	4

Drilling Capacity

Max Drilling Diameter

Material	Diameter
Concrete	32mm
Steel	13mm
Wood	40mm

Features

Key Features	SDS PLUS Quick Lock, VDE Plug, 2m Cable, One-Button Operation, Ruler Included
