

# 1500W Portable Solar Power Station with Trolley

This portable power station combines a lithium battery with a 1500W inverter for reliable AC and DC power. It is designed with trolley wheels for easy transport and offers solar charging capabilities.

## ADDITIONAL IMAGES

## Overview

### Reliable Off-Grid Power Solution

This 1500W portable power station offers a robust, silent, and clean energy solution designed for demanding environments. Equipped with a high-capacity lithium-ion battery and a convenient trolley design, it provides reliable AC and DC power for remote job sites, emergency backup, and outdoor applications. The unit features extensive protection, including IP67 water resistance when closed, ensuring durability and peace of mind during operation.

## Physical Specifications

### Dimensions & Weight

Attribute	Value
Weight	25 kg (55 lbs)
Dimensions	29 x 40 x 54.6 cm

### Durability Ratings

IP67 Water Protection • Trolley Design • Heavy Duty

## Connectivity & Ports

### Charging Inputs

- AC Input: 100-130 Vac (235W)
- Solar Input: 72 Vdc (450W Max)

### Output Ports & Interfaces

Port Type	Specification
AC Outlet	2x 120VAC 60Hz, 12.5A
Jump Starter	1x 12V, up to 400A/5S
12V DC	2x 5.5/2.1mm (Total 240W)
USB-A	2x 5V/2.4A (12W)
USB-QC3.0	2x 5V/3.4A, 9V/2.5A, 12V/2A

## Battery Details

Battery Chemistry

Lithium Ion
