Overview

Robust Cargo Transport Solution

This 150cc gasoline-powered cargo tricycle is engineered for efficient commercial and industrial transportation. Featuring a robust 150cc air-cooled engine and a durable, reinforced cargo bed, it is designed to handle heavy loads reliably. With its EEC certification, sturdy chassis, and enhanced suspension system, this vehicle offers a cost-effective and dependable solution for various logistics and delivery needs.

Engine & Performance

Engine Displacement	150 cc
Engine Type	Air-cooled, 1-cylinder, 4-stroke
Ignition Type	C.D.I
Starter System	Electric, Kick
Transmission	5 forward + 1 reverse

Chassis & Suspension

Chassis Dimensions	40*80 keel and 40*80 chassis
Front Suspension	Dragon absorber, #43
Rear Suspension	Steel plates, 8+2 thicken

Cargo & Capacity

Load Capacity

1000 kg

Max Load

Cargo Bed Features

- Flowered bottom
- 3rd generation engineering design
- Enclosed metal railings

Cargo Box Size

1.9m x 1.3m

Technical Specifications

Certification

EEC Certified

Tire Size

5.00-12 (Front/Rear)

Rear Axle

5-bolt full floating, 180mm

Battery

9A
