

150cc Three-Wheel Cargo Motorcycle

This three-wheeled motorcycle is engineered for heavy-duty hauling and transport, providing a practical solution for transporting goods and materials. Equipped with a 150cc engine and three-gear transmission, it delivers reliable performance and adequate torque for challenging terrains.

Product Overview

Robust Cargo Solutions

The ZS150ZH-2D is a versatile three-wheeled motorcycle engineered for reliable heavy-duty hauling and material transport. Equipped with a high-efficiency 150cc engine and a reinforced frame, this vehicle is designed to maintain performance under demanding load conditions. Its three-gear transmission system provides the necessary torque for navigating inclines and challenging terrain, making it an ideal choice for both commercial and personal logistics.

Technical Specifications

Engine Displacement	150 cc
