

150cc Urban Motorcycle

This motorcycle is a robust and reliable choice for urban and commercial use. Its 150cc engine provides efficient performance and fuel economy.

Overview

Designed for Urban Reliability

This 150cc urban motorcycle combines a classic vintage design with robust engineering for daily commuting and commercial utility. It features a single prolonged flat seat engineered for long-duration comfort, supported by an engine platform that has been rigorously tested for tough usage conditions. Whether for business transport or navigating city streets, this model prioritizes stability, efficiency, and long-term durability.
