

150lb Trunnion Mounted Ball Valve

This trunnion mounted ball valve is designed for industrial applications requiring reliable flow control. It features robust construction with flanged connections, suitable for high-pressure systems.

Overview

Industrial Trunnion Mounted Ball Valve

This 150lb trunnion mounted ball valve is engineered for demanding industrial applications requiring reliable flow control and high-pressure performance. Its robust construction ensures minimal leakage and efficient operation in critical systems. Designed for durability, this valve features flanged connections for secure, long-term installation in professional environments.

Technical Specifications

Nominal Size	DN200
Pressure Rating	150lb
Body Material	WCB
Operation Method	Handwheel
Design Features	Trunnion Mounted, Flanged Connection, High Pressure, Leak-Resistant

Performance Metrics

Key Performance Indicators

150 lb

Pressure Class
