Product Overview

Professional Segmented Turbo Diamond Blade

This 150mm segmented turbo diamond saw blade is engineered for high-performance cutting in demanding hard materials like reinforced concrete, granite, and masonry. Featuring a cold-pressed sintered segment design, it balances aggressive cutting speed with clean, chip-free finishes. The high-alloy heat-treated steel core ensures superior durability, minimal vibration, and smooth operation during intensive use.

Technical Specifications

Key Measurements

150 mm

Diameter

1.4 mm

Body Thickness

7 mm

Segment Height

22.2 mm

Arbor Bore

Compatibility

Angle Grinders, Marble Cutters, Wet Cutting, Dry Cutting

Material Composition

Material Specifications

Component	Material
Blade Body	65Mn Steel
Cutting Segments	Diamond & Metal Powder

Cutting Applications

- Reinforced concrete
- Granite slabs
- Exposed aggregate concrete
- Sand-lime stone
- Brick and masonry
