

15in 2-Way High-Definition Powered Speaker

This 2-way high-definition powered speaker delivers pristine clarity and high output power in a lightweight, durable cabinet. The 15" woofer and 1.75" high-frequency driver feature discrete amplifiers for 1600 watts of power total.

Overview

Professional Sound Reinforcement

This 15-inch 2-way powered loudspeaker is engineered for high-definition audio performance in professional sound reinforcement applications. It integrates advanced audio processing, including system correction DSP, crossover, and transducer time alignment to ensure sonic clarity. With a rugged, tour-ready design, it is built to withstand the demands of frequent transport and live performance environments.

Audio Performance

Frequency Response	44 Hz - 20 kHz (-3 dB)
Maximum SPL	135 dB
Integrated DSP Features	System Correction, Crossover, Transducer Time Alignment

Power & Amplification

Power Output

1600 W
Peak Power

800 W
RMS Power

Amplifier Class	Class-D
-----------------	---------

Transducers

Woofer Size	15 in
Compression Driver	1.75 in

Connectivity & Control

Connectors

- XLR Input
- XLR Output

Control Features	Input Gain Control, Signal LED, Overload LED
------------------	--

Construction

Design Features

Tour-ready • Integrated Handles

Enclosure Material	15mm multi-ply birch
--------------------	----------------------
