

1.5kW Portable Inverter Generator

This 1.5kW inverter generator is a portable power source suitable for a variety of applications. It features a compact design, 220V outlet, voltmeter display, and a 4-stroke engine for stable power.

Product Overview

Portable Power Solution

This 1.5kW portable inverter generator is engineered for versatility, serving as a reliable power source for camping, outdoor events, and emergency backup needs. Its compact design features a protective frame and integrated safety warnings, ensuring both durability and ease of use. Equipped with a 4-stroke engine, this unit delivers stable power output suitable for a variety of professional and recreational applications.

Performance Metrics

AC Rated Output

1200 W

Rated Output

1500 W

Max Output

Electrical Specifications

Parameter	Value
AC Voltage	110/220V
Frequency	50/60Hz

Technical Details

Fuel Tank Capacity	5 L
Engine Type	4-stroke

Features & Safety

Safety Instructions

- Read owner's manual before operating
- Add oil before starting
- Carbon monoxide hazard warning

Key Features	Portable, Compact Design, Voltmeter Display, Protective Frame
