

# 1.5kW Three-Phase Asynchronous Induction Motor

This 1.5kW three-phase asynchronous motor is an induction motor suitable for various industrial applications. It offers reliable performance and durability with a robust construction and efficient cooling system.

## ADDITIONAL IMAGES

## Product Overview

### High-Efficiency Three-Phase Induction Motor

This YE2 series three-phase asynchronous motor is engineered for reliable performance across a wide range of industrial applications. Built with high-quality 100% copper windings, it ensures durability and efficiency, meeting both IE1 and IE2 standards. The versatile design supports multiple mounting configurations and is fully certified to international quality and safety standards, making it a dependable choice for diverse machinery systems.

## Technical Specifications

### Efficiency Standard

IE1 • IE2

### Mounting Configurations

- B3
- B5
- B35
- B14
- B34

### Rated Power Range

0.25 - 430 hp

### Available Poles

2-pole, 4-pole, 6-pole, 8-pole, 10-pole

### Flange Size Range

63 to 355

### Construction Materials

100% Copper Wire

## Certifications & Standards

### Certifications

CCC, CE, ISO 9001:2015, GB/T 19001-2006

## Performance Data

### Key Performance Indicators

**1.5 kW**

Rated Power

**1410 R.P.M.**

Rated Speed

**2.95 A**
