

1.5L Electric Drip Coffee Maker with Keep-Warm Function

This electric drip coffee maker brews up to 1.5L of coffee. It features a swing-out filter basket, a removable water tank, and a keep-warm function.

Product Overview

Professional 1.5L Drip Coffee Solution

This 1.5L electric drip coffee maker is designed for high-capacity brewing, serving between 10 to 15 cups per cycle. It features a robust 1000W heating system and a dedicated keep-warm function to ensure coffee remains at the ideal serving temperature. Built with safety and convenience in mind, it includes overheat protection, an anti-drip valve, and a removable translucent water tank for easy maintenance.
