

15L Knapsack Power Sprayer with Gasoline Engine

This 15L knapsack power sprayer provides a portable solution for spraying needs in agriculture and horticulture. Its gasoline engine delivers consistent pressure, and the adjustable nozzle offers versatile spray patterns.

Overview

High-Efficiency 15L Knapsack Power Sprayer

The 15L Knapsack Power Sprayer is a portable and efficient solution designed for professional agricultural and horticultural spraying. Powered by a high-performance gasoline engine, it delivers consistent pressure and flow for the effective application of pesticides, herbicides, and fertilizers. Its ergonomic design, featuring padded shoulder straps and a comfortable backrest, ensures operator comfort during extended use.

Key Performance Metrics

Performance Highlights

15 L

Tank Capacity

30 kgf/cm²

Max Pressure

10 l/min

Suction Capacity

Engine Specifications

Engine Model

TU26 • 1E34F

Displacement

26 cc

Starting System

Recoil

Carburetor Type

Diaphragm

Fuel Ratio (Gas:Oil)

25:1

Pump & Operation

Pump Type

High Pressure Piston Pump

Working Pressure

5-30 kgf/cm²

Spray Volume

3-8 l/min

Physical Characteristics

Tank Capacities

Tank Type	Capacity
Water Tank	15 L
Fuel Tank	1.1 L

Net Weight 10 kg

Dimensions 42 x 35 x 63.5 cm

Features

Design Features

- Padded shoulder straps for comfort
- Ergonomic backrest
- Adjustable nozzle for versatile spray patterns
- Durable construction for demanding environments
