

1.5T Electric Stand-Up Reach Truck

This 1.5T electric reach truck features a flexible and compact design with zero emissions and low noise. Due to its stand-up driving position, it provides good vision, making it suitable for industries like tobacco, textile, food, and supermarkets.

Overview

Compact Electric Reach Truck

This 1.5T electric stand-up reach truck is engineered for high-efficiency material handling in narrow-aisle environments. Featuring advanced AC motor control and CAN BUS technology, it delivers reliable, maintenance-free performance with precise steering and lifting control. Its compact design and stand-up operator configuration provide excellent visibility and maneuverability, making it an ideal solution for industries like tobacco, textiles, and food storage.

Technical Specifications

Dimensions & Capability

| Metric | Value |
|-------------------------------|--------------|
| Model | CQD15 |
| Configuration | GA2R |
| Driving Mode | Station type |
| Truck Body Length (w/o forks) | 1687 mm |
| Truck Body Width | 1093 mm |
| Gradeability (loaded) | 10% |

Key Features

Operational Advantages

- AC motor control for travel, lift, and steering
- Maintenance-free AC electric powered steering
- Real-time steering wheel position display
- CAN BUS technology for reliable communication
- Interactive liquid crystal display with password protection
- Closed-loop control for driving and lifting speed
- Automatic braking on slopes for enhanced safety
- Low-noise gear pump for environmentally friendly operation

Suitable Industries

Tobacco, Textile, Food Processing, Supermarket, Warehousing
