Product Overview

Professional Grade Pool Trowel

This 16-inch by 4.5-inch stainless steel pool trowel is engineered for the precise application and smoothing of plaster, concrete, and other surfacing materials. Featuring a flexible, hardened stainless steel blade and a lightweight aluminum alloy mounting, it offers the durability required for demanding wet environments. The ergonomic handle design is focused on reducing user fatigue, making it an essential tool for professional pool builders and contractors.

Dimensions & Build

Blade Length	16 in
