

16-Inch Children's Bicycle with Steel Frame

This children's bicycle features a 16-inch steel frame and a monocoque design. It is equipped with front and rear V-brakes for reliable stopping power.

Product Overview

Designed for Young Riders

This 16-inch children's bicycle is engineered with a durable steel monocoque frame, providing the stability and safety necessary for children learning to ride. It features a reliable front and rear V-brake system for confident stopping power and air-filled tires for a smooth experience across various surfaces. With its adjustable design and sturdy construction, this bike is an excellent choice for developing balance and riding independence.
