Product Overview

High-Performance Industrial Ventilation

This 16-inch portable industrial exhaust fan is engineered for heavy-duty ventilation in demanding environments like workshops, warehouses, and construction sites. Featuring a robust metal construction and a powerful motor, it delivers high-volume air circulation to effectively exhaust fumes, smoke, and dust. Designed for maximum usability, the unit includes convenient handles and a wheeled frame, allowing for easy transport and precise airflow positioning.

Technical Specifications

Safety Features
Protective grille

Fan Diameter	16 inch
Mobility Features	Wheeled frame, Dual-side handles, Adjustable elevation
Build Material	Robust metal construction

Operational Capabilities

Performance Highlights

16 inch	400 mm	600 mm
Fan Size	Minimum Ventilation Range	Maximum Ventilation Range

Best For

- Workshops
- Warehouses
- Construction sites
- Industrial fume exhaust
- Dust and smoke removal
