

16 oz Black Rubber Mallet

This 16oz rubber mallet is designed for delivering soft blows without damaging surfaces. The black rubber head absorbs impact and minimizes rebound.

Product Overview

Professional Impact Solution

This 16 oz rubber mallet is engineered for controlled force applications where surface protection is critical. Featuring a high-quality black rubber head, it effectively absorbs impact energy to prevent marring or damaging sensitive workpieces. The balanced design and ergonomic construction make it an essential tool for furniture assembly, sheet metal forming, and delicate installation tasks.
