Overview

Professional Hydraulic Bending Power

This 16-ton hydraulic pipe bender is engineered for heavy-duty applications, providing the extra power required for large jobs. Designed for versatility, it is suitable for bending gas, water, sprinkler, and exhaust pipes with precision. The unit features a robust, heavy-gauge steel construction to ensure long-lasting durability in demanding construction or plumbing environments.

Technical Specifications

Bending Force

16 Tons
Max Pressure

Maximum Bending Angle

90 degrees

Dimensions (LxWxH)

63 x 18 x 17.5 cm

Die Specifications

Included Pipe Dies

- 1/2 inch
- 3/4 inch
- 1 inch
- 1.1/4 inch
- 1.1/2 inch
- 2 inch
- 2.1/2 inch
- 3 inch

Supported Pipe Diameters

15mm, 20mm, 25mm, 32mm, 40mm, 50mm, 65mm, 80mm

Construction & Features

Certifications

CE

Build Material

Heavy-duty gauge steel
