Overview

Reliable Circuit Protection

This 3-pole miniature circuit breaker is engineered for robust overload and short-circuit protection in both residential and commercial electrical systems. Featuring a compact, lightweight design with a quick-break mechanism, it ensures reliable performance and safety in lighting and motor distribution systems. Built with high fire-resistant and shockproof materials, it offers long-term durability for demanding industrial and building applications.

Technical Specifications

Rated Current

16 A

Rated Current

Number of Poles	3
Rated Voltage	400V
Frequency	50Hz/60Hz
Breaking Capacity	6000A

Compliance & Safety

Construction Materials

High fire-resistant plastic • Shockproof casing

Standards Compliance	IEC 60898, GB 10963.1, CE
----------------------	---------------------------

Application

Typical Applications

- Lighting distribution systems
- Motor distribution systems
- Industrial enterprises
- Commercial districts
- High-rise buildings
- Residential dwellings
