

16T Heavy-Duty Forklift Truck

This is a heavy-duty forklift truck designed for lifting and transporting loads. The forklift is equipped with a telescopic mast for reaching high storage locations.

Overview

Heavy-Duty Industrial Performance

The 16T Heavy-Duty Forklift Truck is engineered for demanding industrial environments, offering a robust chassis and powerful performance for high-capacity lifting. Designed with an ergonomic operator cabin for enhanced visibility and control, this unit ensures safe and efficient handling of heavy loads. It is an ideal solution for warehouses, construction sites, and other heavy-duty logistics applications.
