

1.7L Stainless Steel Electric Kettle with Rapid Boil

This electric kettle has a 1.7-liter capacity and a rapid boil system for quick heating. It features automatic shut-off, a water level indicator, a 360-degree swivel base, and a concealed heating element.

Product Overview

Elegant and Efficient Design

This 1.7L stainless steel electric kettle combines sophisticated aesthetics with professional-grade performance. Designed for high-frequency use, it features a rapid boil system and a concealed heating element to ensure efficient, clean operation. Integrated safety mechanisms, including automatic shut-off and boil-dry protection, provide peace of mind in any busy kitchen environment.

Technical Specifications

Power Rating

1500 W

Power Output

Capacity	1.7 L
Voltage/Frequency	120V / 60Hz
Heating Element	Concealed Stainless Steel Chassis

Features

Safety Functions

- Automatic power off after boiling
- Anti-dry protection
- Concealed heating element

Convenience Features	360-degree rotation, Removable water filter, Water level indicator, Easy clean design
