Product Overview

Advanced Protection & Comfort

These 18-gauge gloves utilize Adamas technology to deliver superior cut resistance without the use of glass fiber or steel, ensuring a flexible and comfortable fit. Designed for long-term wear, the ergonomic hand former reduces fatigue during extended work sessions. The Eco-Latex coating provides exceptional grip and durability, performing 3-4 times longer than standard latex crinkle gloves while remaining environmentally friendly.

Technical Specifications

Gauge	18
Liner Material	HPPE (High-Performance Polyethylene)
Coating	Eco-Latex

Safety & Standards

Cut Resistance

6 A6 ANSI Cut	13997 F ISO Cut
