

18-Inch Bar Chainsaw

This chainsaw has an 18-inch bar and chain for versatile cutting. It is equipped with a high-performance engine, ergonomic design, and safety features.

Product Overview

Professional Cutting Performance

This 18-inch chainsaw is engineered to provide a blend of power and efficiency for demanding wood-cutting tasks. Designed with an ergonomic focus, the unit minimizes user fatigue during extended operations, making it suitable for both professional contractors and serious homeowners. With integrated safety mechanisms and a robust motor, it offers reliable performance for felling trees, processing firewood, and general landscape maintenance.
