

180 Degree Elbow Pipe Fitting

This elbow fitting is made from carbon steel and stainless steel. It is designed to change the direction of flow by 180 degrees in piping systems.

Product Overview

Industrial 180 Degree Elbow Pipe Fitting

This 180-degree elbow pipe fitting is designed to facilitate smooth directional changes in fluid or gas piping systems. Crafted from high-quality materials, it ensures optimal flow characteristics and durability in demanding industrial environments. The fitting is suitable for welding or threaded connections, making it a versatile component for various plumbing and infrastructure projects.

Technical Specifications

Material Composition	Carbon Steel, Stainless Steel
Fitting Type	180 DEG Elbow L/R

Logistics and Trade

Shipping Ports

- Tianjin
- Shanghai

Accepted Payment Terms

L/C • T/T

Delivery Time	Within 30 days after contract signing
Packaging	Plywood Cases
