Overview

The QLN1804 features a heavy-duty chassis and comfortable cabin for long operational hours.

Robust Agricultural Performance

The 180 HP tractor is a versatile agricultural machine engineered for demanding farming tasks including plowing, tilling, and heavy hauling. Equipped with a 6-cylinder water-cooled engine and a multi-gear transmission system, it provides high torque and precise speed control across varied terrains. The unit features a comfortable cabin with high-visibility design and durable heavy-duty axles for maximum field stability.
