

# 180mm Angle Grinder for Metalworking

The 180mm angle grinder is a versatile tool for grinding, cutting, and polishing. Its robust motor delivers high performance for demanding applications, while the ergonomic design ensures comfortable handling.

## Product Overview

### Professional Performance

This 180mm (7") Angle Grinder is engineered for demanding grinding, cutting, and polishing tasks across metalworking, construction, and general fabrication projects. It features a robust motor designed for high performance and efficiency, ensuring consistent results under load. The tool prioritizes user comfort with an ergonomic design that helps reduce fatigue during extended operation, while integrated safety features like a wheel guard and spindle lock facilitate quick, secure wheel changes.

## Technical Specifications

Disc Diameter	180 mm
Disc Size	7 inch

## Usage & Safety

### Safety Requirements

- Wear eye shields
- Wear dust mask
- Use wheel guard

Compatible Materials	Metal, Wood, Brick, Steel
----------------------	---------------------------

## Features

### Key Features

Ergonomic Design • Spindle Lock • High-Performance Motor
