

180W Bench Grinder and Belt Sander Combination

This versatile combination tool features both a belt sander and a bench grinder. It is designed for efficient material removal and finishing with adjustable work rests for precise control and safety.

Product Overview

Versatile Combination Tool

This 180W bench grinder and belt sander combination is engineered for efficient material removal and precision finishing. Featuring both a belt sanding arm for smoothing larger surfaces and a grinding wheel for tool sharpening, it offers dual-functionality in a compact footprint. Designed with adjustable work rests, a spark deflector, and an eye shield, this unit prioritizes both operational control and user safety for professional and hobbyist applications.

Technical Specifications

No-Load Speed

- 2980/min
- 134/min

Input Power (S1)	180 W
Input Power (S2)	250 W
Voltage/Frequency	230V-50Hz
Wheel Size	Æ15020 x Æ12mm

Features & Safety

Primary Functions

Belt sanding • Bench grinding

Integrated Safety	Spark deflector, Eye shield, Adjustable work rests
