

183L Capacity Top-Freezer Refrigerator

This refrigerator has a total effective volume of 183L and a freezer volume of 61L. It has a freezing capacity of 3.0kg/24h and consumes less than or equal to 0.58kw.h/24.

Product Overview

Efficient 183L Top-Freezer Solution

This 183L top-freezer refrigerator provides an optimal storage balance with a dedicated 61L freezer compartment. Designed for energy efficiency, it operates at a Level 1 rating and consumes less than 0.58kW.h per 24 hours. Its compact footprint makes it an excellent choice for professional environments requiring reliable food preservation with minimal power usage.
