

1.8L Electric Drip Coffee Maker with Digital Display

This electric drip coffee maker has a large 1.8L capacity for brewing multiple cups. It features a digital display, programmable settings, and stainless steel accents.

Overview

Premium 1.8L Digital Drip Coffee Maker

This sophisticated electric drip coffee maker combines modern aesthetics with precision brewing technology, featuring a sleek stainless steel exterior and a large, intuitive touch panel. Designed for the discerning home or office environment, it offers complete control over the brewing process with features like adjustable carafe temperature, aroma control, and a 24-hour programmable clock. The 1.8L heat-resistant glass carafe and double-walled filter holder ensure your coffee remains hot and flavorful for longer.
