

# 1.8L Stainless Steel Electric Kettle

This high-class electric kettle has a 1.8L capacity and operates at AC220V 50Hz with 1500W power. It is designed for boiling water quickly and efficiently.

## Overview

### High-Efficiency Stainless Steel Kettle

This 1.8L electric kettle is designed for rapid boiling performance in professional and home environments. Constructed with a durable stainless steel body, it combines a sleek, polished aesthetic with ergonomic handling for safe and easy pouring. With a powerful 1500W heating element, it offers efficient water heating for daily usage requirements.

## Technical Specifications

### Power Consumption

**1500 W**

Power Output

Capacity	1.8 L
Voltage & Frequency	AC 220V / 50Hz

## Design Features

Material Composition	Stainless Steel, Heat-Resistant Plastic
Model Identifier	KF-EK1626
