

1.8L Turbocharged Engine

This high-performance 1.8L turbocharged engine is designed for automotive applications. It features a lightweight aluminum alloy cylinder head, direct fuel injection, and variable valve timing for optimized power and efficiency.

Overview

High-Performance 1.8L Turbocharged Engine

This high-performance 1.8L turbocharged engine is engineered for automotive applications, delivering a balance of power and efficiency. Designed with advanced components like a lightweight aluminum alloy cylinder head and direct fuel injection, it offers exceptional responsiveness. The inclusion of variable valve timing ensures optimized performance across various driving conditions, making it an ideal choice for vehicle upgrades and performance enhancements.

Technical Specifications

Application Focus

Automotive • Performance Upgrade

Displacement	1.8 L
Induction	Turbocharged
Key Features	Aluminum Alloy Cylinder Head, Direct Fuel Injection, Variable Valve Timing
