

1.8m Kitchen Ventilation Hood

This 1.8-meter kitchen ventilation hood is designed for effective air extraction. It features integrated lighting and a sleek design to complement modern kitchens.

Product Overview

Professional Island Ventilation Solution

This 1.8m island hood is designed for high-performance kitchen ventilation, featuring a unique 310W energy-saving motor for efficient operation. It utilizes a double impeller system and a broadleaf turbine to ensure powerful extraction while maintaining a sleek, modern aesthetic. Built with high-quality materials, this unit is engineered for durability and ease of maintenance in professional or high-end residential settings.
