

18V 5S2P Lithium-Ion Battery Pack for Electric Wrenches

This lithium-ion battery pack is engineered for electric wrenches, delivering reliable power. The 18V battery pack features a 5S2P configuration, enhancing both power and runtime.

Product Overview

High-Performance Power Solution

This 18V lithium-ion battery pack is engineered specifically for electric wrenches and heavy-duty power tools. Utilizing a 5S2P configuration—featuring 5 series and 2 parallel cell connections—it delivers the enhanced power and extended runtime required by professional users. Designed for reliability, this pack ensures consistent energy output for demanding job site applications.
