

18V Brushless Rotary Hammer

This 18V brushless rotary hammer is designed for drilling and chiseling concrete, brick, and stone. Its brushless motor delivers exceptional power and efficiency, extending runtime and tool life.

Overview

Professional Performance

The 18V Brushless Rotary Hammer is a high-performance power tool engineered for demanding drilling and chiseling tasks in concrete, brick, and stone. Equipped with an advanced brushless motor, it delivers superior power, extended runtime, and increased durability for professional construction and renovation projects. Designed with user comfort in mind, the tool features vibration reduction technology and an ergonomic build, ensuring stability and control during extended operation.

Technical Specifications

Rated Voltage	18 V
No-Load Speed	1400 RPM
Impact Rate	4900 BPM
Impact Energy	1.7 J

Drilling Capacity

Drilling Capacity by Material

Material	Max Diameter
Concrete	22
Steel	13
Wood	30

Features

Key Features

- Brushless Motor Technology
- Vibration Reduction System
- Integrated LED Work Light
- Ergonomic Design

Operating Modes

Rotary Hammer, Rotation Only, Chisel Only
