

18V Cordless Brushless Belt Sander

This 18V cordless belt sander is designed for sanding various materials. The brushless motor ensures efficient performance, extended runtime, and cordless convenience.

Overview

High-Performance Cordless Sanding

This 18V cordless belt sander is engineered for professional-grade sanding tasks across wood and metal surfaces. Powered by an efficient brushless motor, it delivers consistent performance and extended runtime without the constraints of power cords. The inclusion of an integrated LED working light ensures precision and visibility, while its ergonomic design promotes comfort during extended operation.

Technical Specifications

Voltage	18 V
Belt Speed	270 r/min
Belt Size	76 x 457 mm

Key Features

Motor Technology

Brushless Motor

Integrated Features

- LED working light
- Dust collection system
- Variable speed control
- Cordless operation
