

18V Cordless Impact Wrench with 4AH Li-ion Battery

This 18V cordless impact wrench provides significant torque for various demanding applications. Its 4AH lithium-ion battery ensures extended run-time and consistent power output.

Overview

Professional Performance

This 18V cordless impact wrench is engineered for demanding professional applications in automotive repair, construction, and general maintenance. Powered by a high-capacity 4AH Lithium-ion battery, it delivers consistent torque and extended run-time for heavy-duty tasks. The tool features an ergonomic design to reduce user fatigue and includes safety enhancements like a leakage-prevention gearbox.

Technical Specifications

Voltage	18 V
Battery Capacity	4 AH
Battery Chemistry	Lithium-ion
Quick Charge Time	1 hour

Key Features

Safety & Design Features

- Built-in LED work light
- Short circuit protection
- Battery capacity indicator
- Integrated leakage-prevention gearbox
- Battery loosen-prevention design

Performance Highlights

18 V

System Voltage

4 AH
