

19-Pin Male to Male HDMI Cable

This is a high-quality HDMI cable with 19-pin male connectors on both ends. It is designed with gold-plated connectors, nickel shielding, ferrite cores, and a durable nylon sleeve.

Product Overview

High-Performance Connectivity

This 19-pin male-to-male HDMI cable is engineered for reliable, high-quality signal transfer between audio-visual devices. Featuring robust construction with gold-plated connectors and nickel shielding, it ensures minimal interference and optimal durability. The inclusion of ferrite cores and a protective nylon sleeve makes this an ideal solution for connecting HDTVs, gaming consoles, and Blu-ray players in demanding environments.
