

193L Top-Freezer Refrigerator

This refrigerator has a total effective volume of 193L, with a freezer compartment volume of 71L. Its freezing capacity is 3.5kg/24h, and it consumes less than or equal to 0.71kw.h/24.

Product Overview

Efficiency Meets Capacity

The 193L Top-Freezer Refrigerator offers a reliable solution for cold storage needs, featuring a balanced design with a 71L freezer compartment. Engineered for energy efficiency, it operates at a Level 2 rating and consumes less than 0.71kWh per 24 hours. Its compact footprint makes it an excellent choice for professional environments where space optimization and consistent freezing performance are required.
