

196cc 4-Stroke Gasoline Engine

This 196cc gasoline engine is a 4-stroke, single-cylinder, air-cooled engine. It delivers a rated power of 5.5hp with a maximum of 6.5hp.

Overview

Reliable 196cc 4-Stroke Power

This 196cc 4-stroke gasoline engine is engineered for versatility and consistent performance in various small machinery applications. Featuring a single-cylinder, forced air-cooled design, it balances power output with efficient operation. With a rated power of 5.5hp and a maximum of 6.5hp, it provides reliable energy for equipment such as generators, water pumps, and lawn maintenance tools.

Performance Metrics

Key Performance Metrics

5.5 hp

Rated Power

6.5 hp

Max Power

1800 rpm

Rotation Speed

Technical Specifications

Engine Specifications

Parameter	Value
Displacement	196cc
Bore x Stroke	68 x 54 mm
Cylinder Type	Single cylinder
Valve Configuration	Overhead valve
Cooling System	Forced air cooling

Ignition & Starting

Transistor Magneto, Recoil Start

Capacities & Dimensions

Fluid Capacities

- Fuel Tank: 3.6L
- Engine Oil: 0.6L

Physical Dimensions

400 x 370 x 375 mm

Logistics

Container Load (20FT)

520 sets
