

# 196cc Vertical Shaft Engine

This vertical shaft engine has a 196cc displacement. It is suitable for lawn mowers, tillers, and other equipment requiring a vertical power output.

## ADDITIONAL IMAGES

## Overview

### High-Performance 196cc Vertical Shaft Engine

This robust 196cc vertical shaft engine is engineered for versatility and reliability in outdoor power equipment like lawn mowers and tillers. Featuring a patented heat dissipation and air guide system, it operates at lower oil temperatures for extended service life. The unit combines user-friendly starting mechanisms with low-noise operation, ensuring a premium experience for both residential and commercial end-users.

## Technical Specifications

### Rated Power

**6.5 HP**

Rated Power

### Displacement

196 cc

### Rated Speed

3600 RPM

## Compliance & Features

### Key Features

- Patented heat dissipation and air guide system
- Easy-start mechanism
- Low noise and vibration output
- Optional EFI for fuel efficiency
- Vertical shaft configuration

### Certifications

CE, EPA, CARB, EURO-5
