

# 1W Osram LED Module

This is a high-efficiency 1W Osram LED module. It features robust construction for durability and reliable performance, suitable for indoor and outdoor environments.

## Product Overview

### High-Efficiency LED Module

This 1W LED module is engineered for versatility and reliability in professional lighting applications. Designed with robust construction, it ensures consistent performance for signage, backlighting, and accent lighting projects. Its high brightness output and long lifespan make it a suitable choice for both demanding indoor and outdoor environments.

## Technical Specifications

### Environment Suitability

Indoor • Outdoor

### Power Rating

1 W

### Model Number

NO:PO511F

### Recommended Applications

Signage, Backlighting, Accent Lighting
