Product Overview

Versatile 2-in-1 Audio Solution

This innovative device seamlessly transitions between a high-quality on-ear wireless headphone and a portable speaker, offering maximum flexibility for your audio needs. Equipped with Bluetooth 5.0 and NFC technology, it ensures quick and stable connectivity for streaming music or taking calls via the built-in microphone. Designed for convenience, it features a foldable frame, FM radio, and TF card playback, making it an ideal choice for versatile, on-the-go listening.
