Product Overview

Versatile 2-in-1 Rug Making Solution

This professional-grade 2-in-1 tufting gun is engineered for versatility, allowing creators to seamlessly switch between cut pile and loop pile textures in a single device. Designed for both professional rug makers and dedicated hobbyists, the machine features a robust build with an ergonomic blue handle for enhanced control during extended operation. It is compatible with a wide variety of yarn types and fabric backings, making it an ideal choice for diverse rug-making projects requiring consistent, high-quality results.
