

2-in-1 Hair Straightening and Curling Iron

This versatile hair styling tool combines straightening and curling capabilities. It features adjustable temperature control, multiple heating rods, and a comb-like structure for guiding hair.

Product Overview

Versatile Styling Performance

The SR5 2-in-1 tool is engineered to offer both straightening and curling functionality in a single, compact device. Designed with a unique parallel heating rod system and integrated comb-like guides, it allows for smooth styling and professional-looking results. This tool is built with heat-resistant materials for safety and features an adjustable interface to cater to varying hair styling needs.
