

2-in-1 Vacuum Cleaner and Steam Mop

This 2-in-1 appliance combines vacuuming and steam mopping functionality. It features independent or simultaneous operation, a detachable dust storage, and a retractable pole.

Overview

Dual-Action Cleaning Solution

The 2-in-1 Vacuum Cleaner and Steam Mop offers a versatile solution for efficient floor care, combining powerful suction with deep-cleaning steam. Designed for convenience, it features independent or simultaneous operation modes, a retractable pole for storage, and a liftable mop head compatible with various pad thicknesses. This unit effectively removes stubborn stains while sterilizing surfaces, making it an ideal choice for maintaining high hygiene standards.
