

# 2-Inch Desktop Thermal Transfer Barcode Printer

This 2-inch desktop printer offers high-resolution printing for clear barcodes and text. It supports multiple connectivity options such as USB for integration with existing systems.

## ADDITIONAL IMAGES

## Overview

### Compact Thermal Transfer Solution

The GS-2206T is a versatile 2-inch desktop printer engineered for high-performance thermal transfer and direct thermal labeling. Designed for space-constrained environments like retail, healthcare, and logistics, it delivers clear 203 DPI output for reliable barcode and text printing. Its robust, user-friendly design ensures easy media loading, seamless connectivity, and minimal downtime in demanding professional settings.

## Key Metrics

### Print Resolution
