

2-Inch Stainless Steel Paint Brush with Wooden Handle

This high-quality paint brush is constructed with stainless steel and features a comfortable wooden handle. It is designed for smooth and even paint application and is suitable for various painting projects.

Product Overview

Professional Grade Application

This 2-inch professional paint brush is engineered for precision and durability in demanding painting environments. Featuring a solid tapered synthetic filament, it provides smooth, even coverage for both latex and oil-based paints. The construction includes a robust stainless iron ferrule for longevity and a comfortable birchwood handle designed for extended use.
