

2-Ton Hydraulic Floor Jack for Vehicle Lifting

This 2-ton hydraulic floor jack is designed for lifting vehicles. It features a minimum height of 140mm and a maximum height of 295mm.

Product Overview

Professional Hydraulic Lifting Solution

This 2-ton hydraulic floor jack is engineered for reliable vehicle lifting in automotive maintenance and repair environments. Constructed with a durable steel frame, it provides the necessary stability and strength for daily workshop use. Its compact design and intuitive operation make it an essential tool for technicians requiring efficient vehicle elevation.
