

## 2 x 2000HP ASD Harbour Tugboat

This is a high-performance ASD (Azimuth Stern Drive) harbour tugboat featuring a 2 x 2000HP engine configuration. It is designed for efficient and reliable ship handling in port environments.

### Overview

#### High-Performance Harbour Tug

This 2 x 2000HP Azimuth Stern Drive (ASD) harbour tugboat is engineered for demanding ship handling operations in busy port environments. Featuring a robust dual-engine configuration, it delivers the power and maneuverability required for efficient vessel assistance. Its specialized design ensures reliable performance across a wide range of harbour tasks.

### Technical Specifications

#### Total Power

**4000 HP**  
Total Power

Propulsion System	ASD (Azimuth Stern Drive)
Engine Configuration	2 x 2000HP

### Operational Capabilities

#### Key Features

- Robust towing gear
- High-maneuverability propulsion
- Designed for port environments

Primary Application	Harbour Operations, Ship Handling, Towing
