Product Overview

High-Performance Propulsion

This 20 HP four-stroke outboard motor is engineered for reliability and efficient performance on the water. Designed as a self-contained unit featuring an integrated engine, gearbox, and propeller drive, it offers seamless propulsion for a variety of small watercraft. Its tiller-steered design ensures intuitive control, making it an ideal choice for both recreational boating and professional fishing applications.

Technical Specifications

Horsepower

20 HP

Rated Power
